Welcome Message

It is a great honor and privilege to invite you to the third meeting of the Egyptian Society of Skull Base Surgery (ESSBS).

A major goal of our meetings is to foster stronger scientific relationships among professional disciplines related to skull base surgery.

The scientific program has been carefully designed to incorporate a broad spectrum of topics to reflect the Multidisciplinary nature of the field of skull base surgery. The program is prepared in such a way that both the experienced and the non experienced in the field of skull base surgery will all benefit from the lectures, presentation and the interactions.

We expect that this program will provide an outstanding educational experience and significantly enhance understanding and collaboration between different disciplines related to the field of skull base surgery.

We look forward to seeing you there!
